Introduction

As a web developer, you will have the opportunity to implement a captivating promotional responsive website for Lyon, a historic and vibrant French city. This city boasts not only charming historical architecture and rich cultural heritage but also a highly livable environment and a dynamic modern urban atmosphere. Your task is to bring to life a website that meets the requirements and delivers exceptional results, showcasing the unique charm of Lyon to the world and attracting more tourists and investment, according to the requirements.

We've provided the website's logo, text, and images. Use your talent to make this webpage as rich and engaging as possible.

This webpage's title is "Wonderful Lyon" and its slogan is "Discover Lyon, a city bursting with vibrant colors and unforgettable moments".

Description of project and tasks

Here are descriptions for each section of this webpage:

- Header:**

This section should include the website's logo, a navigation menu (with links to Home, Hotels, Restaurants, Museums, Destination), and a Need Help button that, when clicked, jumps to the Looking for help section.
- Banner:**

This section should be presented as a slider, with at least 4 slides that users can interact with. Each slide must contain an image and a title.
- Slogan:**

Display the website's slogan in a distinctive way.
- Recent Events:**

This section should feature a selection of events, presented in a list or other layout, with at least 4 events. Each event must include an image, event title, event description, event date, event price, and a button to join.
- History and Culture:**

This section should be displayed as a timeline.
- Special Food:**

This section should introduce the local specialties of Lyon through text and images.
- Notable People:**

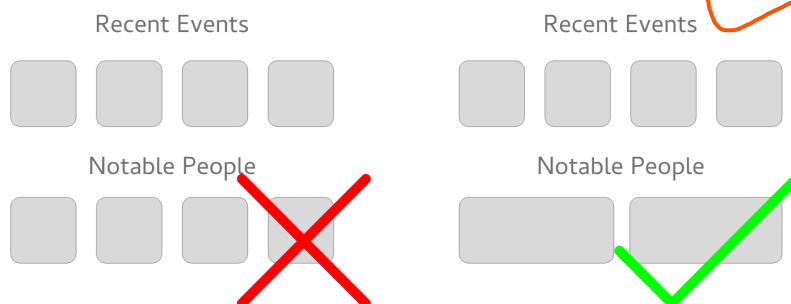

List notable people from Lyon using text and images.
- Looking for help:**

This section should list common questions as links and provide a help question input box, an email input box, and a submit button for users to submit their questions.
- Footer:**

This section should include copyright information, social media icons, and links to other French city websites.

Notes

Each section of the webpage should have a distinct layout, and the website should be responsive to both desktop and mobile devices.

The client wants the website to appear prominently in search engine results for Lyon-related queries. Please ensure that the site's deployment meets this requirement.

SEO

Accessibility

In order to let most people understand the information of this entire plan, the client wants to have good accessibility by following the WCAG 2.1—Web Content Accessibility Guideline.

Instructions to the Competitor

- Project should be accessible via /XX_module_b/ where XX is the workstation number.
- All assessment is done on server. No assessment process in workstation.
- Please consider easy-to-maintain for the code and images creation.
